

8 Week Learning Sprint - Personal Resilience

Blended learning that produces results in practice

With global online events course completion being as low as 5%, why would companies waste their money on generic vanilla solutions? Blended learning methods, where self-paced activity is combined with interactive online events and focused on immediate challenges produce superior results.

Inclusions:

- Monitored 8 week Learning Sprint
- Online resource available for 4 additional weeks
- 3 Group online events in Weeks 1, 4 and 8
- 10 Module Problem Solving course with tools and processes
- Completion data provided
- Options to progress to in-house tailored support programs

By adding the urgency of timely completion to our selection of 8 and 12 week Learning Sprints, completion rates are pushed to over 70% and drive your ROI as lessons learned are immediately applied.
